DealerMatix Technologies

Software Engineer

Jan 2025 – Present

Onsite | Chandigarh, Punjab

- Led end-to-end **mobile application development** of the **DealerMatix SFA (Sales Force Automation)** app for **Android and iOS** using **React Native** and **Salesforce Mobile SDK**; delivered dynamic scheme management, real-time GPS tracking, and automated **data synchronization** – improving field sales efficiency across **500+ active users**.
- Architected a scalable **offline-first mobile application** from scratch using **React Native**, **Redux** state management, and **Context API**, integrating **Salesforce Apex**, **SmartStore** local persistence, and **SmartSync** framework; built **2 complete end-to-end business workflows** with reliable **data synchronization** and seamless offline functionality.
- Improved **application performance by 30%** through **pagination**, **lazy loading**, **polling mechanisms**, and **SOQL query optimization** – reducing data load time and enhancing **UI/UX** responsiveness across the **cross-platform mobile application**.

Exposure: JavaScript, React, Salesforce, React Native, Redux, Context API, Azure

Technical Skills

Programming Languages: Java, JavaScript, SQL

Frontend & Mobile: React.js, React Native, Redux Toolkit, RTK Query, Redux Thunk, Context API, React Navigation, Axios, HTML5, CSS3, Tailwind CSS

Backend: Spring Framework, Spring Boot, Spring Data JPA, Spring Security, Hibernate (JPA), RESTful APIs

Build Tools: Gradle, Maven, Bazel

Databases: PostgreSQL, MySQL

Cloud & Tools: AWS, Docker, Git, GitHub, Postman, Azure Data Studio

Core CS Fundamentals: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), SOLID Principles, Design Patterns (Builder, Singleton, Factory)

Projects

DealerMatrix App (Android & iOS)

Sales Force Automation (SFA) Mobile Application

- Worked on end-to-end development of a cross-platform **Sales Force Automation (SFA)** mobile application supporting both **Android and iOS** platforms using **React Native**.
- Developed **scheme management**, **manual schemes**, and a **tax calculator** flows within the application to handle dynamic pricing, discounts, and accurate order calculations.
- Currently supporting an application used by **500+ active users**, ensuring smooth functionality, resolving bugs, and handling continuous change requests (CRs).
- Managed complete **build, release, and deployment lifecycle**, including publishing and maintaining applications on the **Google Play Store** and **Apple App Store**.

Exposure: React Native, Context API, Android, iOS, Salesforce, Mobile Sync, JavaScript

SmartCart – Full-Stack E-Commerce Application

Full-Stack Web Application

- Developed a full-stack **e-commerce web application** with a **React** frontend and **Spring Boot** backend to support product browsing and purchasing workflows.
- Built scalable backend services using **Spring Boot** and **Spring Data JPA** for efficient data persistence and business logic handling.
- Designed and exposed secure **RESTful APIs** to manage products, users, and orders.
- Containerized the backend application using **Docker** to ensure consistent deployment across environments.
- Integrated **Spring AI** to implement an AI-powered chatbot that assists users with product-related queries.
- Implemented responsive and interactive UI components using **React**, improving user experience across devices.

Exposure: React, Spring Boot, Spring Data JPA, REST API, Docker, Spring AI, Java

Education

Sant Longowal Institute of Engineering and Technology

Bachelor of Engineering in Computer Science and Engineering, CGPA: 8.9/10

July 2021 – July 2025

Longowal, Punjab, India
